

Order a New Tree for the Parkway in Front of Your Home – and We'll Pay Half the Cost!

Streamwood's 50/50 Parkway Tree Program gives residents the opportunity to purchase a tree for their parkway at 50% of the cost: you pay 50% of the cost of the tree, and the Village pays the other 50%.

The Village also offers tree planting on private property for the full price of the tree, plus a \$25 service charge per tree. If funds for the 50/50-parkway tree program run out, trees may be purchased at Village cost.

All trees on average are about 2.0 inches in diameter. A nursery contractor will plant the trees around the end of April thru June. The nursery offers a one time replacement guarantee, only. Residents may purchase up to three parkway trees. Parkway trees must be planted a minimum of 40 feet apart. Please use a stake to mark the location where you would like to plant the tree, as soon as you decide to purchase a tree.

Orders and checks, made payable to the Village of Streamwood, must be received by **March 10**. Drop off or mail to: Streamwood Public Works Department, 565 S. Bartlett Road. For further information, or assistance in picking the right tree for your yard, call the Public Works Department at (630) 736-3850.
